WORK EXPERIENCE

Senior Software Engineer

Find&Order

📅 2/10/2025 - Current

📍 Lisbon, Portugal

- Deploy and manage infrastructure in Azure with multiple API integrating SaaS solutions with retailers like **Carrefour & Leroy Merlin**.

Full Stack Developer

Altice/ SAPO

📅 01/03/2023 - 1/10/2025

📍 Lisbon, Portugal

- Led architecture design and implementation for **sapo.pt (120M+ monthly views, ~€500K/year advertising revenue)** using **Go (Gin)**, **Redis** caching, and **RabbitMQ** for async processing, boosting **SEO by 15%** and improving overall performance.
- Developed and maintained **auto.sapo.pt**, a marketplace platform with **25,000+** active car listings using **C# MVC** backend and Vue.js frontend.
- Enhanced **auto.sapo.pt** performance with **Redis** caching, **RabbitMQ** async tasks, and **ELK** stack for advanced search and analytics.
- Collaborated with stakeholders and product teams to define requirements, plan tasks across multiple teams, and deliver key features.
- Conducted multiple interviews to help grow and strengthen the engineering team.

Full Stack Developer

Crédito Agrícola

📅 01/03/2019 - 28/02/2023

📍 Lisbon, Portugal

- Developed **C#/.NET** service that streamlined processing for over **10,000 loans**.
- Successfully led a 6-month cloud migration to **Azure**, enhancing efficiency through **Azure functions** for asynchronous tasks.
- Implemented **CI/CD** pipelines improving deployment efficiency and resilience.
- Designed **RESTful APIs** enabling seamless system integration.
- Optimized **ASP.NET** application, enhancing management of 1000+ bank foreclosed properties.

EDUCATION

Degree in computer science

Instituto Superior de Engenharia de Lisboa

📅 09/09/2020 - 01/06/2025

📍 Lisbon, Portugal

SKILLS

- C# MVC
- React
- Redis
- MongoDB
- Elastic Search
- SQL (Postgres & MySQL) • Docker
- Azure Web App
- Azure Functions • Azure Pipelines
- JSON, SOAP, RESTFUL, OPEN API
- /SWAGGER
- Jenkins
- SignalR
